Markout Procedures for NH Electric Utilities

Planning a project call.....800-375-7413

Liberty will mark all primary and secondary residential services in ROW.

Liberty will mark residential service to primary premise / home.

All services on private commercial property to the building are privately owned and not marked by Liberty .

Planning a project call.....800-698-2007

NH CO-OP marks all lines owned by CO-OP in ROW and Private Property.

CO-OP will mark lines to the meter at all locations .

Primary Master Meter on poles is demarcation point .

Planning a project? Strike a Line? Markout Questions? Call (888) 301-7700

Unitil marks all lines **owned by Unitil** in ROW and Private Property.

Unitil will mark residential services **to the meter only**.

Most secondary services to a commercial/industrial building are privately owned and therefore Unitil does **not** mark these services.

Most primary (higher voltage) lines are owned and marked by Unitil however a few very large customers (schools, colleges, hospitals) own their own primary systems which Unitil does **not** mark.

If there is privately owned underground in the area of the premarked locations, Unitil will call or email the excavator to provide an "alert notice".

Planning a project? Call **Eversource** Electric Services Support Center:

M-F 7:00am-4:30pm at 1-800-362-7764

Eversource marks all lines owned by Eversource in ROW and private property.

Eversource will mark lines to the meter at all locations.

Primary Master Meter on poles is the demarcation point .
